Re: Making Access to Cleanup Happen (MATCH) Act

To Whom it May Concern,

Utah County appreciates the efforts of Congressman Curtis in helping local communities recover from the aftermath of a natural disaster. The MATCH Act will greatly assist Utah County and other local jurisdictions in post-disaster mitigation efforts as they prepare for flooding, debris flows, and mudslides following wildfires and related events. The MATCH Act allows the federal agencies to work closely with local jurisdictions to address immediate needs following these events.

Sincerely,

Richard J. Nielson, P.E.
Director of Public Works and Community Development
Utah County Engineer
